

# TRAINING PROGRAM

FULLY CUSTOMIZED TO THE NEEDS OF EACH CUSTOMER

01

## WHAT WE OFFER

We offer customized training that will help you:

- Cut down on your weld times.
- Speed up your processes.
- Eliminate/minimize microcracking, pits, delamination, or cold fusion.

02

## EVALUATION

We cover a range of skills, including:

- Material selection.
- Laser settings (spot size, pulse rate, power output).
- Filler wire selection and technique.
- Gas coverage.

03

## ADVANCED TRAINING

Many Alpha Lasers offer an advanced WINLaser program that you could be taking advantage of. We can show you how to:

- Create and run CNC programs.
- Fully automate your Laser Welding process.
- Control the axes of motion on your laser unit and activate automatic laser pulses.
